

**Pilot Connect Video Script**

177 words @125/135/150 WPM = 1.4/1.3/1.2 min

	<u>Voiceover:</u> Wordcount: 177	<u>On-screen text</u>	<u>Visuals + Notes</u>
1.		Honeywell Forge Flight Efficiency Pilot Connect: Awareness for Efficiency	Busy airfield with multiple aircraft
2.	Airlines and flight crews are joining forces to save fuel and reduce environmental impact.		Shots of refueling, engine close ups, etc.
3.	The new Pilot Connect mobile app from Honeywell Forge Flight Efficiency makes it easy for flight crews to engage in fuel efficiency initiatives...  ...like balancing fuel savings with on-time performance to stay apprised of how choices like increasing airspeed affect fuel efficiency.  That's important because as much as one-third of an airline's potential fuel savings can be attributed to flight crews.	Pilot Connect Mobile App	Pilots in the cockpit, crew discussions, using tablet or phone app  Pilot Connect opening screen  Cockpit acceleration, jet engines  Airport team communicating from the ground
4.	An intuitive interface gives pilots direct access to real-time information about specific city pairs, statistical contingency fuel, delays, holdings, go-around, and other things that may affect fuel burn.		Pilot Connect screens  Plane in-flight, passing over cities (from above looking down, then from below looking up at the sky)
5.	Recent enhancements to Honeywell Forge Flight Efficiency are expected to boost fuel savings, currently 1- 2% annually for a typical airline with fifty aircraft.	Enhancements  > 1%-2% Fuel Savings, \$8M	Busy airfield with multiple aircraft
6.	Put your data to work... to save fuel, reduce costs and protect the planet.		Plane descent, landing  Crew comradery, confident pilots in cockpit  Fueling crew surrounding plane
7.	No matter where you are in your flight efficiency and sustainability programs, Honeywell can help you take the next major step - and the step after that.	Honeywell Forge Flight Efficiency + Pilot Connect  Learn more at x	Plane in flight, zooming out from cockpit and cabin interiors to sky view, data overlay, night aerial view of city lights below
